

Wiktionary Mobile

Patrick Hayes
@pfjhayes

The Project

- Develop an official mobile Wiktionary app
- Foundations set by Wikipedia mobile app
- Design for extensibility

The Volunteer Effort

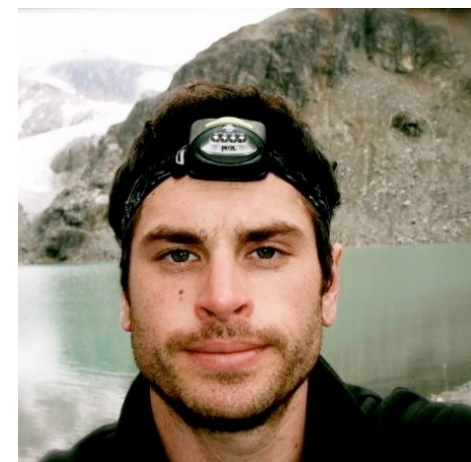

- Undergraduate Capstone Open Source Projects (<http://ucosp.ca>)
- Get Canadian undergraduate students involved in open source projects
- Contribute to open source for course credit

The Team

Tony Cheng

University of Toronto, Computer Science

Shea Clare

University of British Columbia, Computer Science

@sheaclare

Patrick Hayes

University of Waterloo, Computer Science

@pfjhayes

Dale Lemieux

University of Waterloo, Computer Science

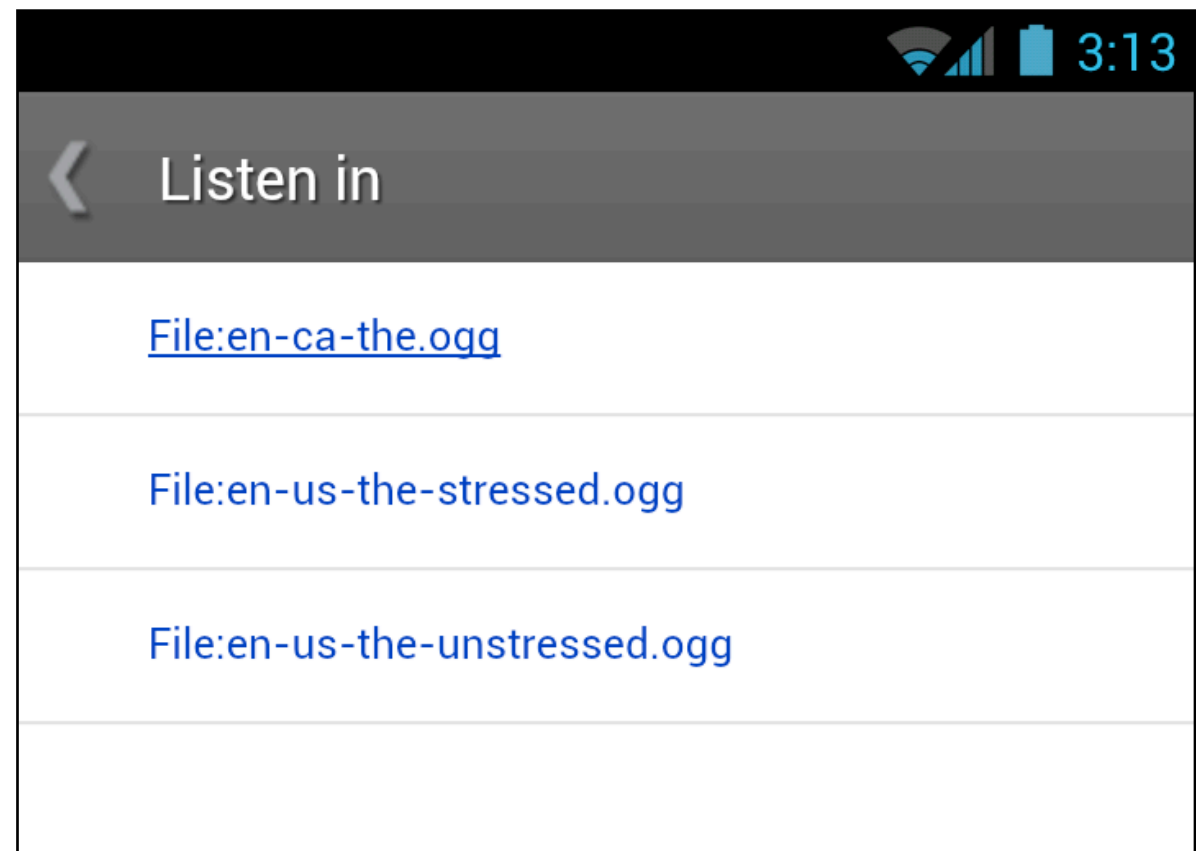

@dalelemieux

Development

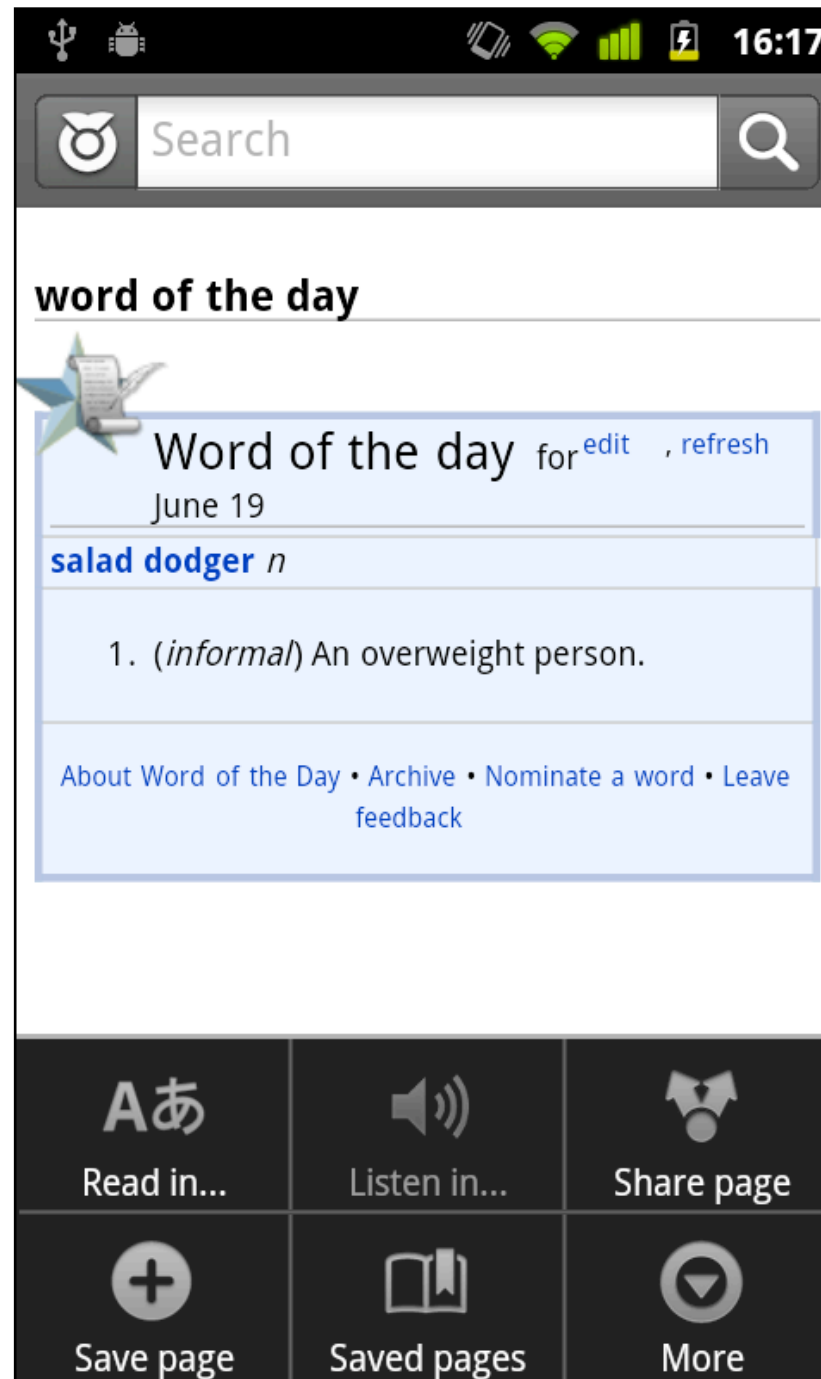

- Built with PhoneGap
- HTML5, CSS, JavaScript
- Compatible with iOS, Android, BlackBerry, Windows Phone

Listen In...

- Listen to word pronunciations

Word of the Day

250+ Languages

- Access pages in over 250 languages
- App has been localized to over 30 languages

Volunteer

- <http://github.com/wikimedia>
- #wikimedia-mobile on IRC
- Developers, contributors, beta testers

Available Now

- Android: <http://tiny.cc/wiktionary>
- iOS: Coming soon...
